WE'RE FOR RESTAURANTS

**And the people who
love them.**

**Since day one, our mission here
at Ritual has been to help
restaurants thrive.**

**In the last seven years, we've
developed products and
experiences that do just that,
introducing you to delicious
food, great coffee, and the
amazing people behind your
favourite spots.**

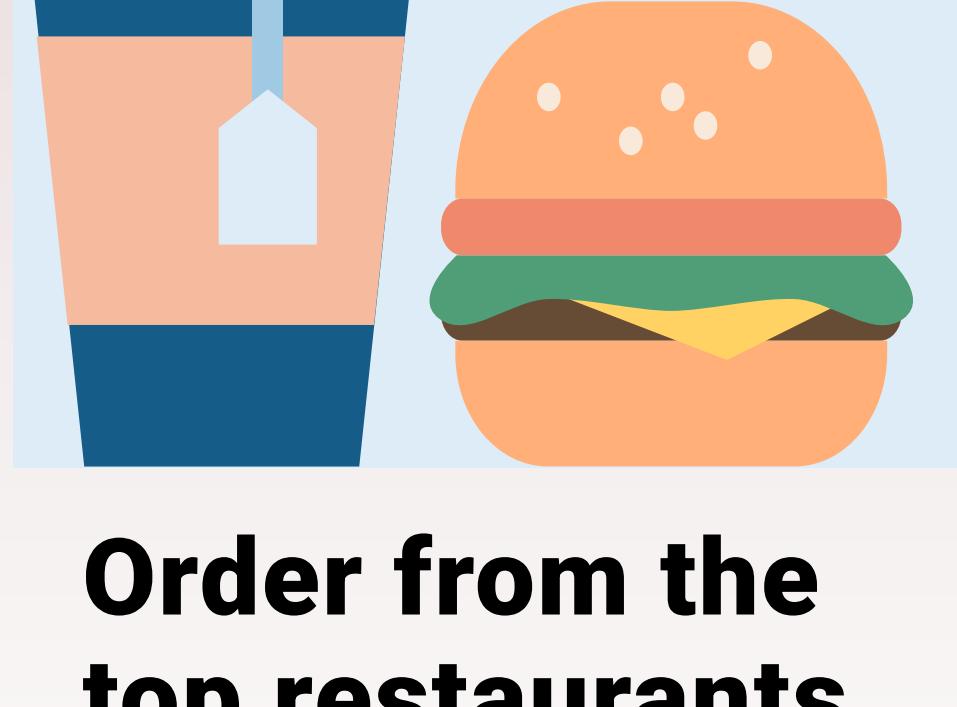

**Once it became clear that
COVID-19 would change life as
we knew it – particularly for the
service industry – we dug our
heels in, finding creative ways to
commit to our purpose and
continue to support our
restaurant partners.**

**Throughout the pandemic, we've
rolled out commission-free
solutions like online ordering and
digital menu creation, helping
restaurants expand their reach.
We've also provided free access
to QR code contact tracing,
turnkey marketing solutions,
contactless payment solutions,
buildings integrations, and more.**

**With the world slowly rebuilding,
we're making our brand a better
reflection of our mission – and
promise – to help restaurants
flourish.**

**Ritual: we're for restaurants,
and the people who love
them.**

WE'RE FOR RESTAURANTS

And the people who love them.

Since day one, our mission here at Ritual has been to help restaurants thrive.

In the last seven years, we've developed products and experiences that do just that, introducing you to delicious food, great coffee, and the amazing people behind your favourite spots.

Once it became clear that COVID-19 would change life as we knew it — particularly for the service industry — we dug our heels in, finding creative ways to commit to our purpose and continue to support our restaurant partners.

Throughout the pandemic, we've rolled out commission-free solutions like online ordering and digital menu creation, helping restaurants expand their reach. We've also provided free access to QR code contact tracing, turnkey marketing solutions, contactless payment solutions, buildings integrations, and more.

With the world slowly rebuilding, we're making our brand a better reflection of our mission — and promise — to help restaurants flourish.

Ritual: we're for restaurants, and the people who love them.
